Deployment Package

This service is a supported service, which constitutes that a Netxactics Services engineer will support your technical team in deploying the product across your organisation. This will be a combined effort between a Netxactics Services engineer and your technical team.

- Available during business hours Monday to Friday 08:00 – 16:30 (GMT+2)
- Cape Town and Johannesburg only

AVAILABLE OPTIONS:

Deployment Planning & Diagram

- Netxactics Services provides a plan on the most effective method to deploy Sophos UTM across your organisation
- Diagram of the Sophos UTM components in an organisation with relation to your current environment

Supported Deployment

- Deployment planning & diagram
- Policy configuration
- Supported Deployment of Sophos UTM across an organisation

Maintenance Package

Through scheduled health checks and reporting the Maintenance Package removes the burden of routine maintenance and enables you to focus on more pressing projects.

- This service entitles you to a monthly site visit by a Netxactics Services engineer
- Available during business hours Monday to Friday 08:00 – 16:30 (GMT+2)
- Cape Town and Johannesburg only

INCLUDES THE FOLLOWING:

Monthly health checks

- Backups
- Appliance check (hardware components and warranty)
- UTM & branch updating check
- Dashboard and notification check
- Definitions creation and check
- Version check
- Routing check
- Active Directory synchronization check (if applicable)
- Features check (wireless protection, network security, webserver protection, etc.)
- Remote access checks (VPN)
- New features discussion
- Summary discussion
- Firewall configuration
- Application control configuration

Policy Configuration

- Data control configuration
- Bandwidth shaping configuration
- Wireless configuration
- Email protection configuration
- Web protection configuration
- Web server protection configuration
- Sophos UTM & VPN configuration
- Remote Ethernet Device (RED) & Access Point (AP) device configuration
- Alert notifications

Reporting

- Summary report on the current state of the Sophos UTM

Reporting

This service is provided in order to provide an accurate health status on the Sophos UTM

- Available during business hours Monday to Friday 08:00 – 16:30 (GMT+2)
- Available to South Africa and other Sub-Saharan countries
- The report is provided electronically via email

INCLUDES THE FOLLOWING:

- Status report (current status of Sophos UTM across the organisation)

Workshops

These workshops are intended to provide a proper understanding and platform to enable effective administration, deployment and maintenance of the Sophos Mobile Control solution.

- Available during business hours Monday to Friday 08:00 – 16:30 (GMT+2)
- Available to South Africa and other Sub-Saharan countries
